

Safety Contract Magic Show Additions

I understand that:

- this contract is in addition to and not in place of the original safety contract,
- removing chemicals from the science department or LHS would be a serious safety violation and may cause harm to myself or others, and
- any props or chemicals I bring to use during the magic show will remain the property of the LHS science department.

I agree to:

- label all containers with the correct names or symbols of the chemicals,
- label all waste correctly,
- pour no chemicals down the drain unless instructed to by the teacher, and
- clean up my project.

I agree not to:

- remove any chemicals from the chemistry room, any of the storerooms, or the stockrooms,
- remove any glassware from the LHS science department,
- remove any LHS property from the science department,
- disturb anything in the science department which is not part of my project, and
- disturb other students' projects.
